White Radiance™

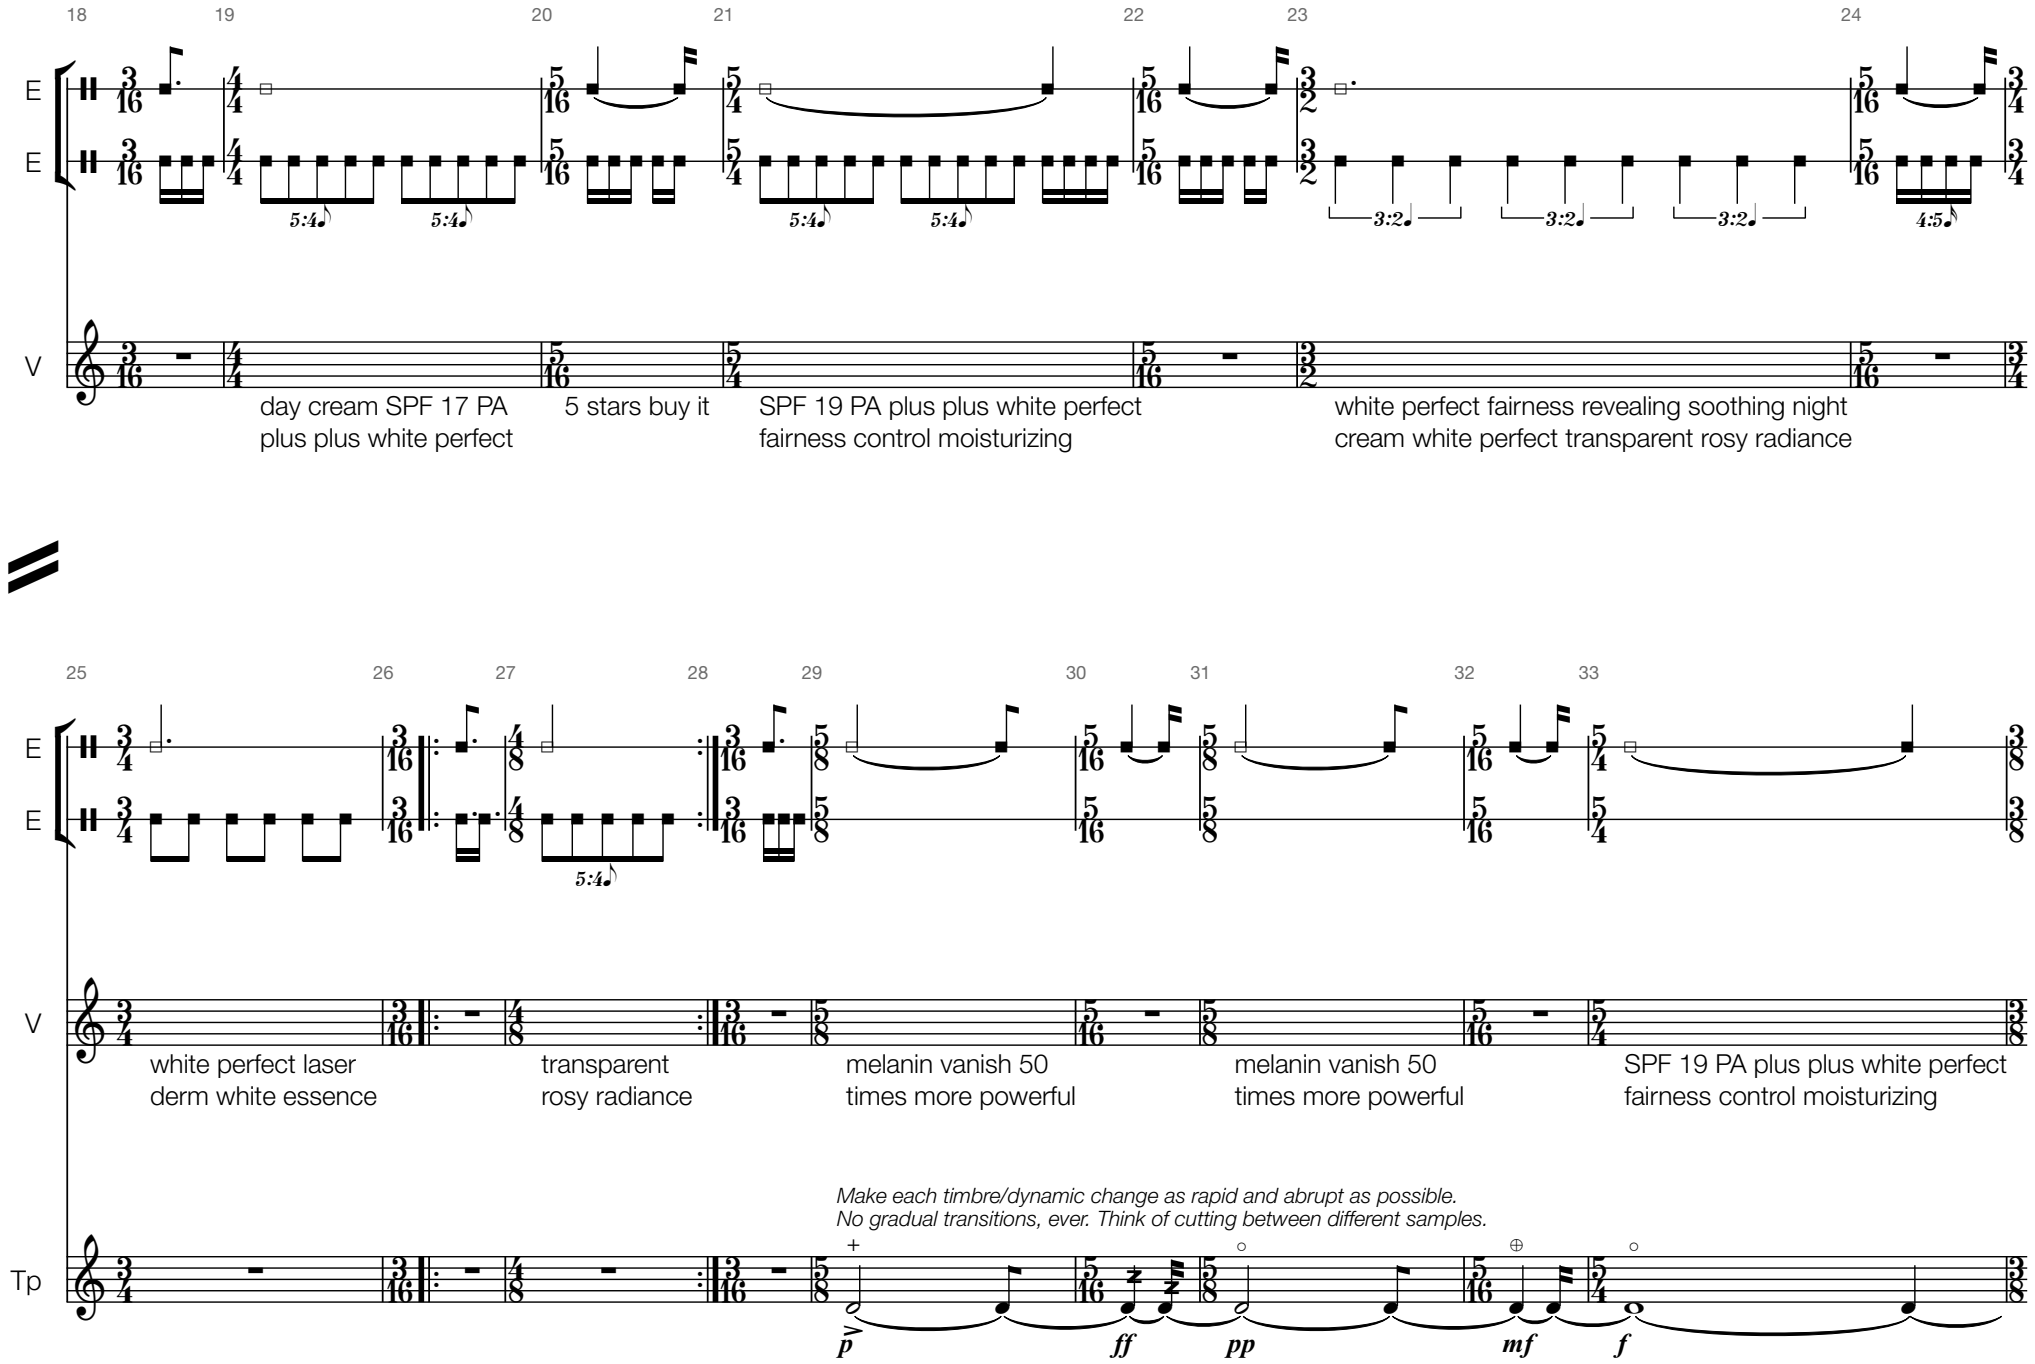

for voice, small ensemble and electronics

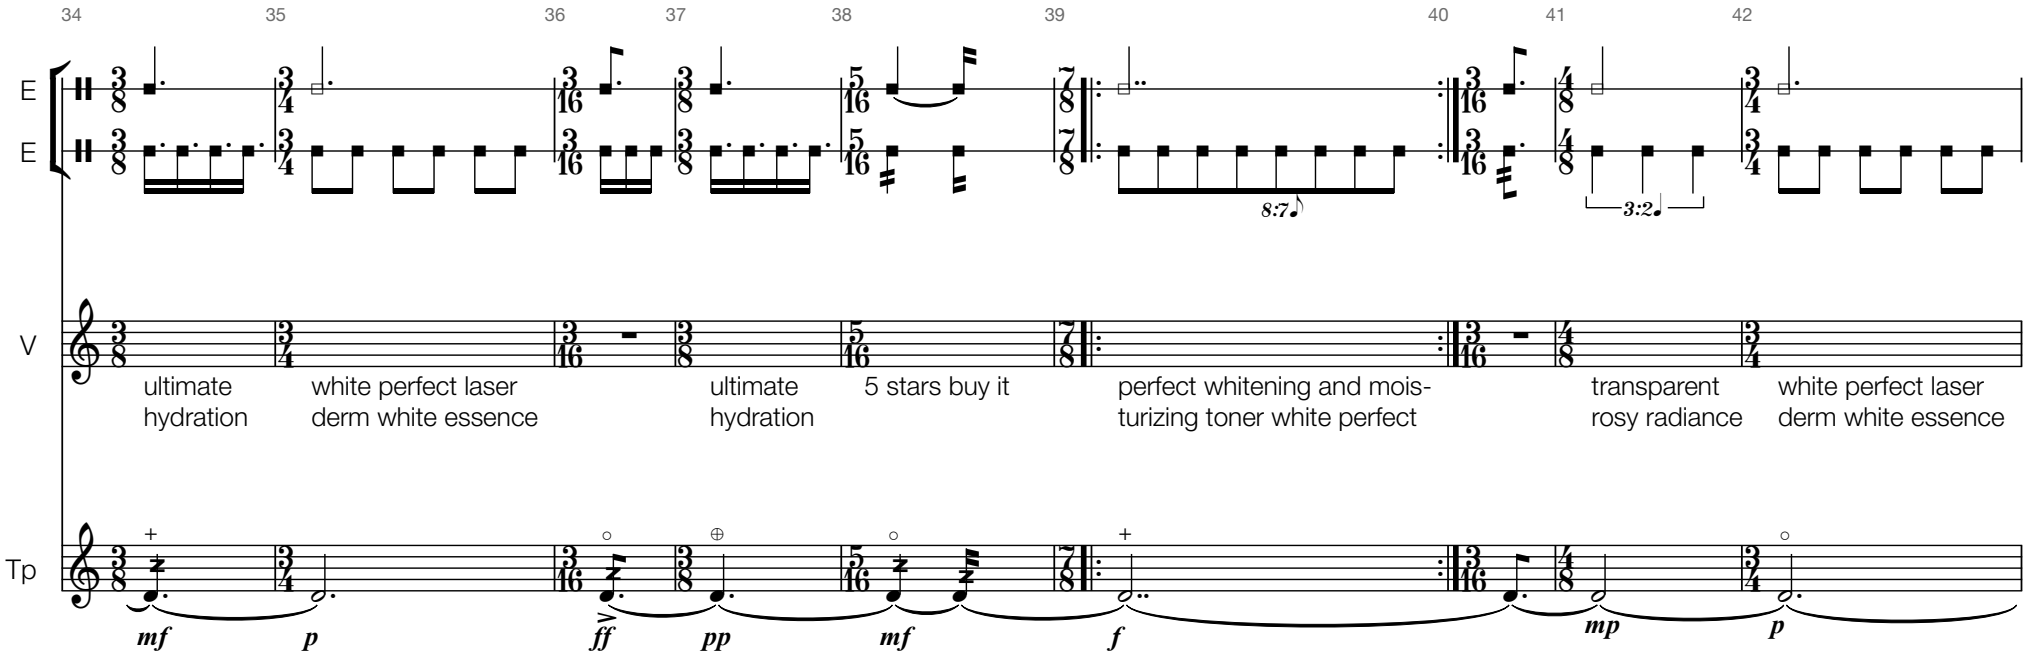

Laure M. Hiendl
2020

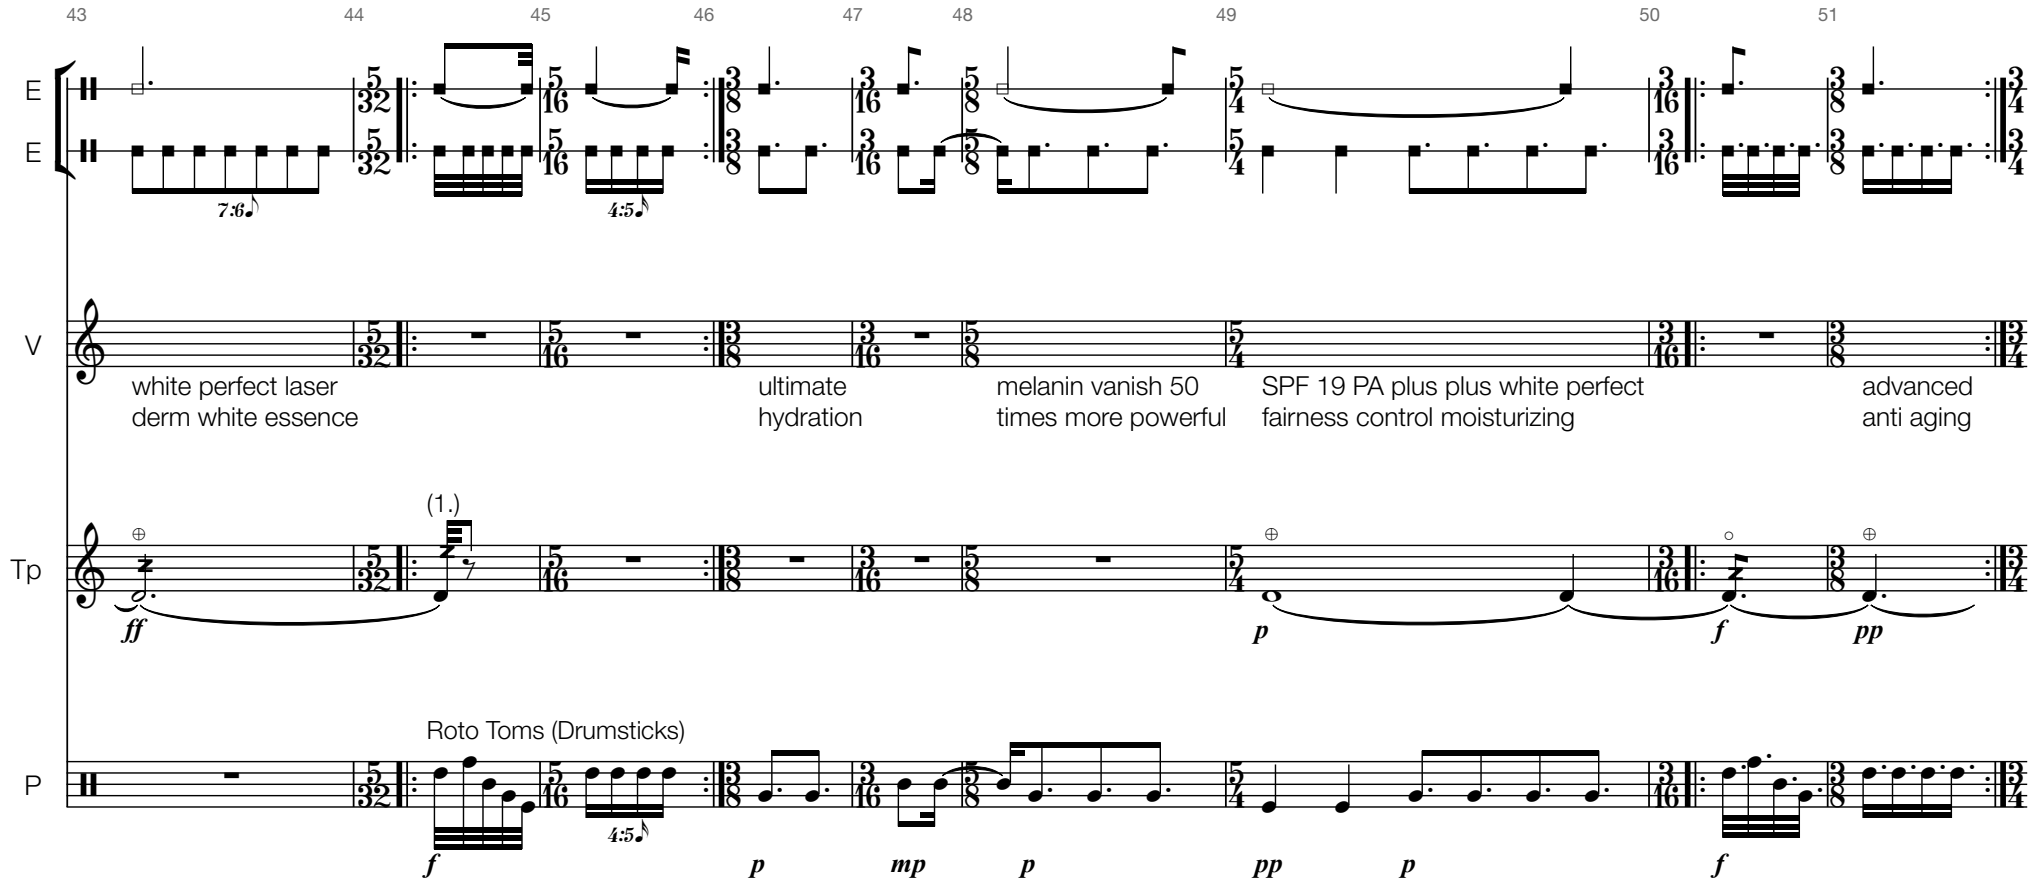

A

Hold as long as possible at max. (and increasing) volume. This first gesture is the material for 5 minutes of looping.
Increase complexity through vowel filtering and different vibratos. Make shifts gradual and/or sudden. Improvise.
Increase intensity towards an abrupt cut-off when out of air. Signal cut-off to sound engineer.

Make each timbre/dynamic change as rapid and abrupt as possible.
No gradual transitions, ever. Think of cutting between different samples.
